

Artificial Penetration No. 664

Rycade Oil Corp.
Kishi-Lang #4

RAILROAD COMMISSION OF TEXAS—OIL AND GAS DIVISION

Austin, Texas

RECEIVED

IMPORTANT NOTICE: This is the first record the Railroad Commission has of any well. It is made
in case of all subsequent correspondence. Hence it must be accurate.

DATE OCT 28 1930

NOTIFICATION OF INTENTION TO DRILL, DEEPEN OR PLUG OCT 28 1930

(Comply with Rules of the Railroad Commission of Texas, governing Oil and Gas Conservation in Texas.)

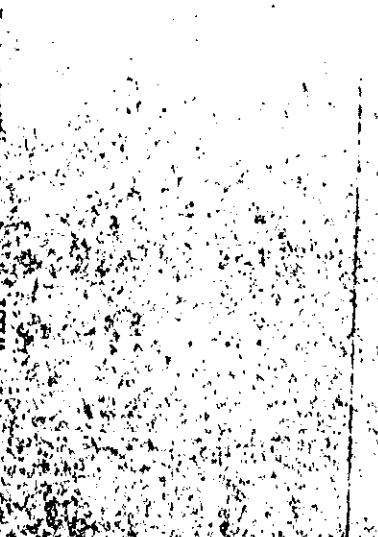

DESCRIPTION OF PROPERTY:

In order that the well covered by this notice may be definitely and accurately located on maps in the office of the commission, draw in the space below, in ink a sketch of the lease or block and lot, giving name and number, and indicate thereon the exact location of the well. Also show the distance, in feet, of the well from the two nearest boundaries of the lease and from the nearest well. Give names of the adjoining leases or property owners.

Scale: 400 feet to 1 inch. If less than 2 acres, 40 feet to 1 inch.

Use back hereof for sketch if necessary.

Deliver to Deputy Supervisor in charge of your district.

Rule 27. No well for oil or gas shall hereafter be commenced nearer than three hundred (300) feet to any other completed or drilling well on the same or adjacent tract or farm; and no well shall be drilled nearer than one hundred and fifty (150) feet to any property line; provided, that the Commission, in order to prevent waste or to protect vested rights, will grant exceptions permitting drilling within shorter distances than as above prescribed, upon application filed fully stating the facts, notice thereof having first been given to all adjacent lessees affected thereby. Rule 27 shall not for the present be enforced within the proven oil fields of the Gulf Coast.

FORM 4

RAILROAD COMMISSION OF TEXAS

Date 16. Plugging Dry and Abandoned Wells—(a) All abandoned or dry wells shall immediately be plugged according to the following rules:

(1) Name of Plugger.—All dry or abandoned wells must be plugged by confining all oil, gas or water to the strata in which they occur, by the use of mud-laden fluid filling well to the top as directed by the Commission or by some other method approved by the Commission.

(2) Method of Plugging.—In addition to the methods set forth in Rule 16, any other method approved by the Commission may be used when so directed.

(3) Notice of Plugging.—Notices of intention to plug any dry or abandoned wells, notices shall be given to the Railroad Commission, to three or more persons known to be adjacent to the well, and to all available adjoining lease and property owners, and reported to the Railroad Commission, to the property owners may, in addition to the oil and gas conservation agent of the Commission, be given to the lessee. Notice of the plugging of these wells if they are dry wells, may, in addition to the oil and gas conservation agent of the Commission, be given to the lessee. Notice of the plugging of these wells if they are dry wells, may, in addition to the oil and gas conservation agent of the Commission, be given to the lessee. (This is amended January 11, 1931.)

Plugging Record to be Filled with Commission.—The owner or operator shall, upon the completion of any well, file with the Railroad Commission of Texas a complete record of fact of the same, duly signed by owner in upon blanks to be furnished by the Commission upon application, and upon plugging any well, or cap, upon whatever, a complete record of the plugging thereof shall be made out and duly verified on blanks to be furnished by the Commission.

PLUGGING RECORD

Company Rycoade Oil Corporation Address Box 1817, Houston, Texas

Res. No. Bk. No. Barre, James Dyson County Orange

Well No. 4 Name of Lease Kishi-Lang No. of Acre 20

Date well was plugged December 22, 1930

Character of Well (Whether it was Oil or Gas or Dry) Oil

Total depth 4315' feet. Top of each producing sand 3013' feet 5 1000' feet.

Was the well filled with mud-laden fluid, according to regulations of the Railroad Commission? Yes

Pump pressure

How was mud applied? By pump

Were plugs used? No If so, show all shoulders left for casing, depth of each, and size of casing used, size and kind of plugs used, and depth placed. Also amount of cement and rock.
